

MATH STORY PROBLEMS

1. Using the math story problems, game boards, and animal cut-outs, to solve the math problems.
2. Begin by reading a math story problem and selecting a game board that corresponds to the problem.
3. Select and cut out the animals mentioned in the problem.
4. Solve the problem using the Common Core math vocabulary, which asks students to add, subtract or recognize features mentioned in the story problem.

COMMON CORE CONNECTION
