STORY ELEMENTS

1. Glue the story element sheets on a file folder. Place beginning and ending on the front of the folder and characters and setting on the back.

2. Laminate the folder so that words or pictures can be written using a dry erase marker. Socks can be used as erasers.

3. Discuss what each story element is. For example: "What is a character?"

4. After listening to the Three Little Kudus students will take the photos and place them in the correct categories: beginning, middle, setting, and character.
